Candice,

We will start 1) collecting watershed review examples along with 2) names of permits you have reviewed.

As for nonpoint/factsheet examples, Nicole (cc'd) has been leading that effort and could provide some examples when they are ready for review. I think she has been able to find some good material that, to my recollection, seems to fit what we had discussed at our meeting.

Steve

Thanks so much Steve for sending the spreadsheet along!

We got a chance to look at this today. You provided example memos for us that describe the scenario, which was very helpful. I believe we have several of these already... South Fork Crow (Delano), Chippewa and Minnesota Rivers (Starbuck), and Buffalo River (Hawley). However, for the other scenarios, we were hoping that you could either (1) send those memos to us to start looking at, or (2) remind us which permit the memo is related to if you have already sent it (so that we can find it more easily in our permit files and refresh our memories on this).

Also, I hope that we can get you all our thoughts on what types of information we are hoping to get on the nonpoint source plans for the watershed and some additional thoughts on the scenarios either tomorrow or Thursday.

Thanks again! I am looking forward to talking more on Monday as well!  
Candice
